

# AS 4000

## Rondo i Classic

### GUARANTEE

60 months

The product is mainly targeted at clients from the investment market (developers, institutional construction) and private investors mainly replacing the old joinery with the new one. Windows in this system have already been sold in many millions, both in Poland and Europe. This is a proven system that meets all the requirements for joinery.

### SHORT TERMS REALISATION

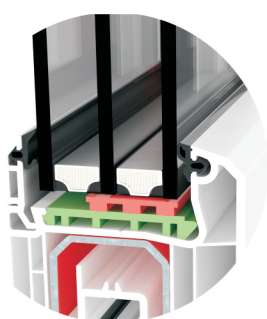

These windows are fitted as standard with Siegenia Favorit hardware and a 24 mm single chamber glazing package. Optionally it is possible to equip the window Aluplast 4000 with the most modern fitting on the market - Siegenia Tytan AF in order to increase the functionality of the window and its anti-burglary advantages. Moreover, in order to increase thermal insulation, we can optionally apply double glazing package (three panes) with  $U_g=0.6$  W/m<sup>2</sup>K coefficient.

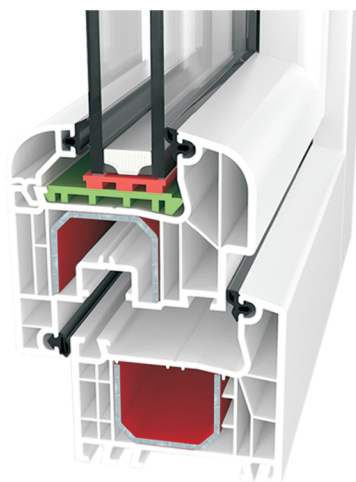

### OPTION - 3 GLASS

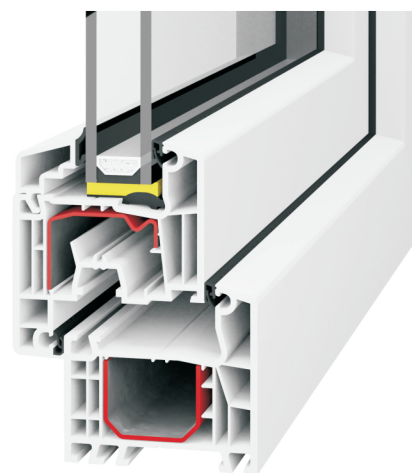

Fast delivery times in four standard colours and two types of profile make this window one of the most frequently selected products for new multi-apartment buildings and for replacements in older buildings.
